## Manufacturer Provided Description

How can you combine the requirements of offshore cruising with the high standards of a luxury motor yacht?

Lagoon has come up with the 630 Motor Yacht to do just that. Yachtsmen have long wanted to expand their horizons with a long range, good performance motor yacht in total comfort and serenity.

And so the 630 Motor Yacht was born! This yacht has a double personality – it has inherited the widely renowned marine qualities of the Lagoon 620, and is also the result of work by talented VPLP architects and from Nauta Design and Lagoon's own engineers. You can count on long distance blue water as well as coastal cruising aboard a luxurious residence.
